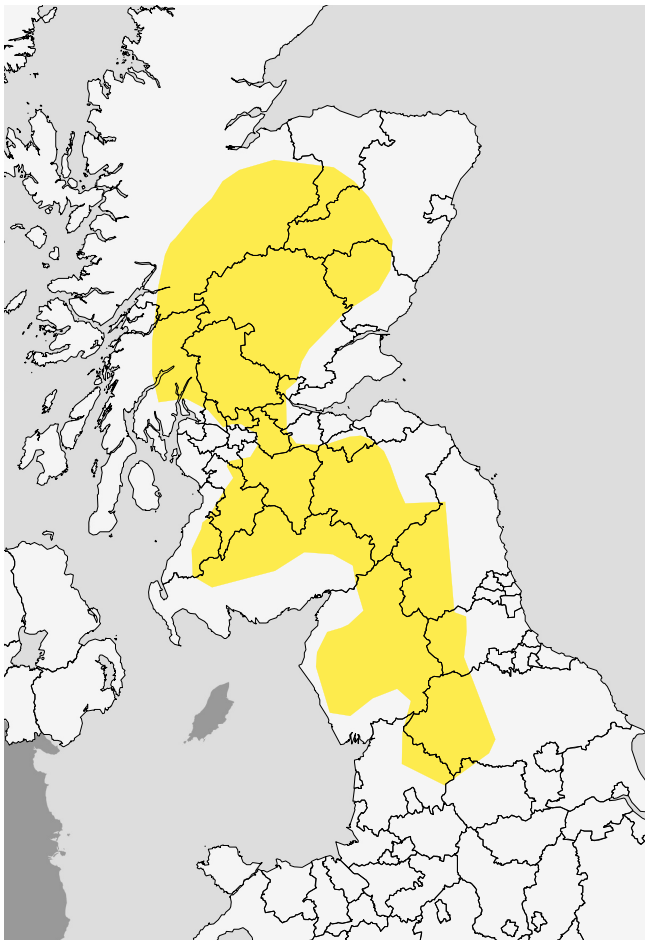
Yellow warning
Snow

Between
11:00 Tue 7 Dec 2021 and
23:59 Tue 7 Dec 2021



Heavy snow is expected across northern parts of Great Britain bringing likely travel disruption, especially over higher routes

What to expect

- Possible travel delays on roads stranding some vehicles and passengers
- Possible delays or cancellations to rail and air travel
- There is a slight chance that some rural communities could become cut off
- There is a small chance that power cuts will occur and other services, such as mobile phone coverage, may be affected

Further details

Spells of hill snow will spread northwards across northern England into Scotland during Tuesday, this snow becoming confined to areas north of the Central Belt of Scotland during the evening. 2 to 5 cm snow is expected to accumulate quite widely above 200 m with 10 to 20 cm likely in some higher areas, particularly in parts of the Southern Uplands and Highlands. Strong winds accompanying the snow will cause blizzards with drifting and poor visibility in places, especially over the highest routes.

Very low likelihood of medium impacts
